

I wholly concur with the comment filed Sonic.net on Dec 20 2004 regarding the Bell South petition.

I was an SBC DSL subscriber for several years.

I left them for Sonic.net two years ago because SBC was too expensive and had atrocious customer service.

To be forced back to a monopoly environment would be an egregious breach of faith by the FCC.

You must protect the little competition we now have.

The Bell South petition should be dismissed with prejudice.
